DANCING WITH DEMENTIA

“If you bring joy to someone living with dementia and you warm their heart, that feeling can live on for them for three whole days”

**Claire Kerrigan, Q&A
Grandma Remember Me**

DNA ‘Dancing with Dementia’ classes offer a chance for participants to experience creative movement and dance with their companions.

Classes focus on stimulation of the brain through movement, repetition, props and musical timelines. These factors offer the opportunity to keep the mind alert whilst also unlocking support for general well-being.

We invite participants to stay after the class, and join us for refreshments & chat.
